## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott A Hill, Registration No. 48899, on June 3, 2005 @455pm EST.

The application has been amended as follows: Attorney for applicant agreed to cancel claims 17-20.

The following is an examiner's statement of reasons for allowance: Claim 1 has a solar light box comprising upper and lower step, each step has face and sides, upper step framing lower step, one light aperture in lower step's face, a light source mounted partially in light aperture, a deep cavity in lower step that is defined by lower step's face and sides, a rain barrier ridge around where an opening drops into deep cavity, one drainage passageway around where an opening drops into deep cavity, one drainage passageway through upper step, and a solar panel lying inside upper step, between upper step's sides.

This combination of limitations is not found or taught in the art of record.

Claims 2-8 depend from claim 1 and are allowable for the same reasons.

Independent claim 9 adds to the limitations of independent claim 1 an outdoor solar powered light assembly that uses a solar panel as a protective lid comprising a rechargeable battery, a charge controller that is connected between solar panel and rechargeable battery, a sensor bracket, a sensor aperture, an energy conserving switch between rechargeable battery and light source, mounted to sensor bracket and at least partially in sensor aperture, means for securing solar panel to solar light box and means for supporting outdoor solar powered light assembly.

This combination of limitations is not found or taught in the art of record.

Claims 10-16 depend from claim 9 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James W. Cranson whose telephone number is 571-272-2368. The examiner can normally be reached on Mon-Fri 8:30A.M.- 5:00P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandy O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
